"The greatest thing in the world is the mind," but a greater thing is a specially trained mind. If you neglect to train the mind for greater usefulness, you fail to convert darkness into light, and you will be virtually blind to seeing opportunities. When you learn to see with knowledge, you see something. In other words when a person looks with cultivated brains he finds more opportunities than he can handle.

We are very glad to announce that we are now in shape to handle wheat and oats at the old Wood Co. elevator, now owned by R. O. Bowman, and located near the B. & O. depot. The elevator equipment is in splendid condition and we can give service practically as good as we used to give at our mill. We hope that our customers will be able to find us at this new location. Mr. Norman Walker is in charge.

SEED WHEAT. We have stock enough of both Poo'e and Fultz seed wheat to supply our home trade. We are, however, having considerable call for these varieties for shipment away and in order to supply this demand we will be obliged to buy considerable more seed of the Fultz variety. If you have any Fultz seed wheat free from rye and cockle, and are ready to sell, it might be worth your while to see us about it. We might want a little Poole also.

We are working on plans to rebuild our burned plant and hope to get started building very soon.
